KRALLEN

500 MCM Cu

Caracteristicas

- ° Fabricados con cobre electrolítico tipo DLP.
- ° Terminales de una perforación barril largo.
- ° Especificados únicamente para conductores de cobre.
- ° Tamaño apropiado para aplicaciones más exigentes.
- Recubrimiento exterior en base a estaño electro depositado libre de cianuro, lo que asegura una instalación sin sulfatación.
- ° Diseñados para aplicaciones hasta 35kV.
